Branded Environments & Signage — since 1982

kourossa.gr

Kouros engineers and manufactures branded environments.

Established in Athens in 1982, Kouros designs, engineers and manufactures the physical environments brands operate in — signage and wayfinding, retail and workplace interiors, furniture and fixtures, outdoor structures, and experiential and temporary environments including exhibitions, events, pop-ups, window displays and visual merchandising systems.

All production is managed in-house across two units — Athens, Greece and Bucharest, Romania — covering metalwork, plastics, joinery, illumination, print and assembly. Kouros acts as a production partner for brands, architects, designers, agencies and event producers, and manages multi-country rollouts to a single standard.
